## Don't Contribute to Counterfeiters
## KNOW YOUR MONEY!

## Don't Be Fooled by Forgers
## KNOW YOUR ENDORSERS!

### The Government never redeems counterfeit money!

1. KNOW YOUR MONEY! Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. COMPARE a suspected bill with a genuine of the same type and denomination. Observe these things:

| | |
|---|---|
| PORTRAIT | *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background. |
| | *Genuine*—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines. |
| COLORED SEAL | *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off. |
| | *Genuine*—Saw-tooth points around rim are even and sharp. |
| SERIAL NUMBERS | *Counterfeit*—Poorly printed, badly spaced, uneven in appearance. |
| | *Genuine*—Figures firmly and evenly printed, well spaced. |
| PAPER | *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines. |
| | *Genuine*—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn. |

3. RUBBING a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. CONSULT an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

**This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or $7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.**

**THE PUBLISHERS**

# INTRODUCTION

R. L. POLK & CO., publishers of the Monrovia, Arcadia, Duarte Directory, as well as many other city and county Directories, present to subscribers and the general public, this the 1955 edition of the Monrovia, Arcadia and Duarte Directory.

Confidence in the continued growth of the communities' wealth and population, and in the advancement of municipal and social activities, will be created as sections of this Directory are consulted, for the Directory is a mirror truly reflecting the community to the world.

The enviable place occupied by R. L. POLK & CO.'s Directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Monrovia, Arcadia and Duarte Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Five Major Departments

The several essential departments are arranged in the following order;

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns of Monrovia is included in pages 17 to 303, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Monrovia and vicinity, and the name, official personnel, nature and address of each firm and corporation. A similar list for Arcadia is included in pages 307 to 620, and Duarte in pages 623 to 722.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE for Monrovia, covers pages 725 to 836, on green paper. In this section the numbered streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes. Telephone numbers as supplied to us on canvass are shown opposite the name. A similar section for Arcadia appears in pages 837 to 963, and Duarte, pages 965 to 1009.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 52, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Monrovia, Arcadia and Duarte. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. In ambitious and progressive communities like Monrovia, Arcadia and Duarte the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 1065 to 1136, on canary paper. This department lists the various manufacturing, mercantile and professional interests of Monrovia, Arcadia and Duarte in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays no small part in the daily activities of the commercial and professional world. More goods are bought and sold through the Classified Business Directory than through any other medium.

THE NUMERICAL TELEPHONE DIRECTORY for Monrovia, Arcadia and Duarte appears opposite page 1136, on blue paper.

### Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence and as a business location. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of the community, for business men, everywhere, realize that the City Directory represents a community as it really is.

### The Directory Library

Through the courtesy of the publishers of the Monrovia, Arcadia and Duarte Directory, a Directory Library is maintained in the offices of the Monrovia Chamber of Commerce for free reference by the general public. This is one of the more than 600 Directory Libraries installed in the chief cities of the US and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

# *A STATEMENT*
# OF ADVERTISING PRINCIPLES

1. **Good Advertising**—aims to inform the consumer and help him to buy more intelligently.

2. **Good Advertising**—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. **Good Advertising**—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. **Good Advertising**—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

*Advertising Federation of America*

**(Your Directory publishers fully subscribe to the principles set forth in this statement)**

# Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore 1000 x 3½ x 305 = 1,067,500

Industry—Arcadia is primarily a home community with only a small portion zoned for light industry.

Ground will be broken for a 137-bed hospital early in spring, 1955.

Schools—7 modern elementary schools with other sites already purchased, and a parochial school offer the finest in educational facilities. Three nursery schools, 2 Junior High Schools, High School and Evening High School.

Churches—Arcadia is well supplied with churches. There are 16 denominations represented at present.

Recreation—Santa Anita Recreation Park, 185 acres maintained by Los Angeles County, affords almost every kind of popular outdoor sport, including one of the finest 18-hole golf courses in the State; Santa Anita Race Track with racing each year from late December through early April; Los Angeles State and County Arboretum (Lucky Baldwin Rancho).

Transportation—Arcadia is well supplied with transportation with the Metropolitan Coast Line running to Los Angeles and also bus service to Los Angeles via Temple City, San Gabriel and Alhambra. The Pasadena City Lines operates a bus service from Pasadena through Arcadia to Monrovia and the Metropolitan Coast Line also operates a bus line from Pasadena through Arcadia to Pomona. Being on transcontinental Highway 66, Arcadia is served by cross-country bus service, and is on the main line of the Santa Fe Railway.

## GENERAL REVIEW

Arcadia was really born when Elias J. Baldwin paid $200,000 for Rancho Santa Anita's 8,000 acres in 1875. Earlier, in 1847, that land was sold for twenty cents an acre. Indeed, 'twas a brave new world. But it was Baldwin, the Builder, who created Arcadia.

For to him, this land beneath the Sierra Madres was in itself beautiful, and he made of it the most wonderful of all California Ranchos.

True, Santa Anita's fame to the world lay in its race tracks (the present one is the fifth) and its internationally known racing stables. Baldwin was the only man ever to win the American Derby four times.

But Rancho Santa Anita was incredibly more. It was a vast contribution to California's agriculture and animal husbandry. Here were produced the widest variety of fruits and grains in addition to thoroughbred horses, the finest of Arabians and Percherons, cattle and hogs, jacks and jennets, and the famous flock of Peafowl whose descendants may be seen today.

Huge reservoirs were built, more than twenty miles of pipe and conduits were laid to carry water to the broad acres. Baldwin had said, when he looked upon this land of the San Gabriel Valley, "This is Paradise."

He left it in 1909, a monument to a man's imagination and energy, and will to enterprise.

If you come to Rancho Santa Anita you will see much that is changed only by time. The old Adobe, the ornate Coach Barn, the strutting Peacocks, lovely Queen Anne Cottage with its marble steps and "gingerbread" ornaments, and the lake of which he was so proud, with its palms and eucalyptus trees.

In January, 1947, 111 acres including the park and its buildings were conveyed to the State of California to be developed into a foremost Botanical Garden and Arboretum.

Today, plans are in the making with Arboretum officials for a Home Talent Pageant and Early California dancing. Activities in the Arboretum will be contingent upon the facilities there.

All this, and more, was once the fabulous Santa Anita, An Empire in the Sun.

Today it is Arcadia.

## HISTORY

Though Duarte is old in years, numbering its age from 1841 when Andres Duarte was granted his many acres, its life now is essentially that of a fast-growing, fast-moving suburban residential community.

Originally, the rolling hills were given over to grazing and grain, but gradually the abundant water from the San Gabriel Canyon was developed for use and grapes and deciduous fruits dominated the scene. These, in turn, gave way to great, solid blocks of citrus, with Duarte navel oranges famous in many climes.

Shortly after World War II, under the pressure of new population, Duarte, with its beautiful foothill setting, abundance of mountain water and proximity to large centers, started turning the citrus groves into modern, residential subdivisions, and today the transition is nearly completed.

Duarte, traversed by Highway 66, is filling up with new homes and new citizens and is developing a business district for its 18,500 to 20,000 population with opportunities still existing for many lines of retail business.

The civic and social life of Duarte is growing with the community, and now includes the Chamber of Commerce, Lions, Lionettes, Rotary Clubs, Duarte Citizens Assn., Duarte Woman's Club, American Legion, P.T.A. and other similar groups, Reading Circle, Community Service Council, Community Chest, Boy Scouts, Cub Scouts, Girl Scouts, Brownies, Gra-Y and Hi-Y groups. A county park is completed and a community center and youth project are being developed by volunteer community effort. The Duarte school system is undergoing a major expansion, which will bring it up to adequate capacity.

Duarte welcomes the new citizens into its life, feeling certain they will enjoy the community and eagerly join in the privilege of helping build a still better community.

## Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

## 1955

**Copyright, 1955, by R. L. Polk & Co.**

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ⊙ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

## POLK'S

# ARCADIA

## Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

## 1955

**Copyright, 1955, by R. L. Polk & Co.**

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

## *A STATEMENT*
## OF ADVERTISING PRINCIPLES

1. **Good Advertising**—aims to inform the consumer and help him to buy more intelligently.

2. **Good Advertising**—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. **Good Advertising**—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. **Good Advertising**—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

## Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide
## 1955

**Copyright, 1955, by R. L. Polk & Co.**

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

# WHY A *Buyers' Guide?*

★ It is customary to include a Buyers' Guide in the City Directory because:

*It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.*

☆

**The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.**

## ADVERTISING JUDICIOUSLY

CREATES a New Business
REVIVES a Dull Business
ENLARGES an Old Business
RESCUES a Lost Business
PRESERVES a Large Business
SECURES Success in Any Business
SAVES a Failing Business
ENABLES You to Pay Your Taxes

**DIRECTORY ADVERTISING**

**BRINGS SATISFACTORY RESULTS!**

# Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore 1000 x 3½ x 305 = 1,067,500

CASHIERS! TELLERS!
CLERKS!

**Do your employers furnish you with the latest edition of the City Directory?**

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

## ...About Your Car Owner Lists

Name of Car owner
Street Address
Mr. Car Owner
Make of Car
City and State
Year and Model

Whatever information an auto owner puts on his license application appears on the new Polk official car owner registration list, now available to you. Every name on a Polk car owner list is "cleaned" ahead of time. Only names of persons to whom mail can be delivered are compiled for you. Polk Car Owner Lists are not "loaded" with extra names that would waste your time and money in sending out mail, or in making personal calls.

*Success or failure of any direct mail advertising program depends on your keeping that list up to date.*

## about *CITY DIRECTORY* circulation

**THE TRUE VALUE** of advertising is circulation consulted — "User Circulation."

**TO BE EXACT** by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

**TO BE CONSERVATIVE** we will eliminate the sixty Sundays and Holidays when no tests were made.

**FOR EVERY THOUSAND DIRECTORIES** sold there is an average of three and one-half daily consultations for each book for three hundred and five days, therefore —

**1000x3½x305=1,067,500**

**Consultations or "User Circulation"**

**The City Directory offers the most Specific Point of Contact advertising known**

# Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore 1000 x 3½ x 305 = 1,067,500

CONSULTATIONS OR CIRCULATION CONSULTED

# OUT-OF-TOWN CITY DIRECTORIES

●

A complete library of out-of-town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

**THE PUBLISHERS**

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**
